

About Us

Instant Marquees Australia started as a small family company in 1989, hiring the US-made KD marquees to markets, parties and events all over South Australia, building up a successful business in the events industry and gaining unparalleled experience and knowledge of instant, folding marquees.

After a year of buying our marquees in from overseas it became obvious to us that manufacturing in Australia should be our next step, setting up in Adelaide with help and guidance in the manufacturing process. Since that time we have sold thousands of our Majestic marquees all over Australia and overseas with many of them still in use today. Our first class repair and parts service helps in their longevity. We still have customers coming back to us for minor repairs on our frames that they have been using regularly for up to 15 years.

In 1997 we moved our factory to Queensland, branching out with franchises in major cities Nation-wide. We are still a family owned company with loyal staff who have been with us for many years.

At Instant Marquees Australia we don't just love giving you a quality product, we thrive on providing the highest standards in customer service and delivery. We value honesty, integrity and fairness in everything we do, so you can expect a great, personalised customer experience when buy your products from us.

Instant Marquees Australia sells and delivers all over Australia and the South Pacific. When buying from us you are dealing with a real Aussie company with Aussie workers who have all had many years experience in the marquee industry.

Enjoy your marquee experience with Instant Marquees Australia, we are confident that you will be happy with your purchase. If you're not, call us and we will do everything we can to make you happy.

Thankyou for shopping with us!

From the Instant Marquees Australia team.
